

한국간담췌외과학회 2026년 통합 포럼

2026년 9월 12일(토) | 부산 벡스코

PROGRAM

09:00 - 09:10	Room 1	개회식
09:10 - 09:30	Room 1	Keynote Lecture 1 The evolution of regional and international HBP & LT programs : Lessons from a quarter-century of surgical practice 좌장: 김경식 (연세의대) 주종우 (창원한마음병원)
09:30 - 09:50	Room 1	Research Topic Presentation Evaluation of the safety and efficacy of living-donor liver transplantation for patients with unresectable colorectal cancer liver metastases 좌장: 김경식 (연세의대) 이태범 (창원한마음병원)
09:50 - 10:10	Room 1	Keynote Lecture 2 Individualized standardization: Safe and reproducible laparoscopic HPB surgery in a regional tertiary center 좌장: 김경식 (연세의대) 한영석 (대구가톨릭의대)
10:10 - 10:30		Break
10:30 - 12:00	Room 1	Symposium 1_ When things go wrong: Lessons in HBP surgery Ruptured giant multiple splenic artery aneurysms in a patient with decompensated liver cirrhosis and portal hypertension: A fatal course of emergency surgical management Pitfalls in minimal invasive hepatectomy An unexpected complication after pylorus-preserving pancreaticoduodenectomy: Multiple small bowel perforation Hepatic artery pseudoaneurysm rupture after robotic-assisted PPPD Injury of AOV after duodenal resection A triumph and a tragedy: Managing post-pancreatectomy pseudoaneurysm Panel 이두호 (가천의대), 최남규 (조선의대), 문주익 (건양의대), 장은정 (동아의대), 권형준 (경북의대), 송기병 (울산의대) 좌장: 장진영 (서울의대), 주종우 (창원한마음병원) 김나루 (이화의대) 신민호 (조선의대) 오락균 (충남의대) 최영일 (고신의대) 안근수 (계명의대) 최유진 (고려의대)
12:00 - 12:30	Room 1	Special Lecture 1_ Legal safeguards and evaluation standards in high-risk HBP surgery Surviving medical disputes: What HBP surgeons must know about high-risk procedure protections and the 12 gross negligence criteria 좌장: 최인석 (건양의대) 이용주 (연세의대)
10:30 - 12:30	Room 2	Education Workshop_ Pancreatic resection for residents (A) <i>Pancreatic surgery for residents: Anatomy, imaging, and surgical decision-making</i> Surgical anatomy: What residents must master (Essential HBP anatomy) Preoperative CT: What residents must read (Vascular & Tumor mapping) Surgical planning: What residents must decide (Translating CT to OR) Q&A (B) <i>Pancreatic resection for residents: Clinical pathway and postoperative care</i> Perioperative care: What residents must apply (ERAS Guideline) Postoperative complications: What residents must monitor (POPF & DGE) Nutritional therapy: What residents must prescribe (Nutritional Support) Metabolic balance: What residents must control (Glycemic Control) Q&A 좌장: 이보람 (서울의대), 성민규 (울산의대) 이미랑 (울산의대) 권희진 (동아의대) 권재우 (성균관의대) 좌장: 박정익 (울산의대), 신상현 (성균관의대) 이유나 (인제의대) 김성현 (연세의대) 김홍범 (성균관의대) 안성희 (이화의대)
12:30 - 13:20		점심식사
13:20 - 14:00	Room 1	Special Lecture 2_ The fourth revision of the relative value scale and future directions in health insurance policy The fourth revision of the relative value scale and future directions in health insurance policy 좌장: 임진홍 (연세의대) 유정민 (보건복지부)
14:00 - 15:00	Room 1	From Evidence to Practice_ Contemporary HPB Guidelines 2026 KLCA-NCC HCC guidelines update: Essential practice points for surgeons Antiviral therapy for chronic hepatitis B: What's new in the 2026 KASL guidelines Guideline updates in precancerous and early malignant pancreato-biliary diseases including IPMN and IPNB Applying pancreatic cancer guidelines to real-world clinical practice 좌장: 김동식 (고려의대), 정치영 (경상의대) 이해원 (서울의대) 허내윤 (인제의대) 조진규 (경상의대) 홍승수 (연세의대)
13:20 - 15:00	Room 2	Research Workshop_ From researcher to global investigator Life as a visiting scholar Sharing experiences of international and domestic collaborative research AI-assisted omics analysis and scientific writing 좌장: 김용훈 (계명의대), 박은규 (전남의대) 신상현 (성균관의대) 권우일 (서울의대) 이성환 (차의대)
15:00 - 15:20		Break
15:20 - 16:50	Room 1	Symposium 2_ Beyond diagnosis and surgery: Clinical insights in HBP disease Right posterior duct injury after laparoscopic cholecystectomy: Does it necessarily require repair? Successful surgical management of a bleeding duodenal gastrointestinal stromal tumor (GIST) via pylorus-resecting pancreaticoduodenectomy (PrPD): A case report Beyond surgery; Unexpected pathology after cholecystectomy: A practical approach for the HBP surgeon Estimated time frame for malignant progression of high-grade dysplasia in the ampulla of vater: Three clinical cases ABO-incompatible living donor liver re-transplantation in a pediatric patient with graft failure due to recurrent progressive familial intrahepatic cholestasis An unexpected enemy: Thrombotic microangiopathy causing fulminant graft necrosis after liver transplantation Panel 서창호 (가톨릭의대), 오채영 (전남의대), 정해일 (순천향의대), 정보현 (인제의대), 조찬우 (영남의대), 채윤수 (서울의대) 좌장: 정동환 (울산의대), 유영동 (고려의대) 이태윤 (가톨릭의대) 유성열 (전남의대) 김영진 (건양의대) 오명훈 (부산의대) 한자령 (대구가톨릭의대) 민은기 (연세의대)
15:10 - 16:50	Room 2	Nurse Session_ Practical perioperative care for surgical nurses: A case-based approach ECG interpretation and recognition of common arrhythmias in surgical patients Practical postoperative pain management Early recognition of postoperative complications after hepatectomy Early recognition of postoperative complications after pancreatic surgery Initial management of septic shock 좌장: 윤명희 (부산의대), 최새별 (고려의대) 이주희 (서울아산병원) 김선민 (고려의대) 박영목 (부산의대) 장은정 (동아의대) 이한영 (인천나온병원)
16:50 - 17:00	Room 1	폐회식
